A Little About SAGE Scholars

At SAGE Scholars, we deeply believe in the value and quality of private higher education. Our mission is to provide access to affordable college opportunities while bringing together families, colleges & universities, and benefit providers to create college funding solutions.

How We Achieve Our Mission

Since 1995, SAGE Scholars has bridged the gap between students who want a quality private college education and colleges that will work closely with member families to ensure affordability — all at no cost to the student, family, or college. Our Tuition Rewards® program provides families a guaranteed tuition reduction of up to 25% for our consortium of over 440 private colleges and universities. In the last year, we've secured member families a savings of over \$98M in tuition.

As the nation's oldest, largest, and most trusted private college preparation and funding organization, we're providing families with the guidance and resources they need for every step of the college process.

Resources For Families Preparing For College

- ✓ **Tuition Rewards®** - a guaranteed tuition discounts that are accepted at over 440 private colleges and universities nationwide.
